TECHNICAL SKILLS

• Languages:

Java, JavaScript, TypeScript

• Frontend & Mobile:

React, Next.js, React Native,
Tailwind CSS

• Backend:

Spring Boot, Node.js,
Express.js, REST APIs

• Databases:

PostgreSQL, MongoDB,
pgvector

• Tools:

Git, GitHub, Docker

EDUCATION

University of Computer Studies, Pyay

Final-Year Student

Expected Graduation:

Early 2027

LANGUAGES

• **Burmese:** Native

• **English:** Intermediate

PROFESSIONAL SUMMARY

Final-year Computer University student and aspiring Full-Stack Developer with hands-on experience building web and mobile applications using Java, Spring Boot, React, Next.js, and React Native. Strong foundation in REST APIs, database design, authentication, and modern frontend development. Seeking a Junior Developer role to contribute to real-world projects while continuing to strengthen software engineering and problem-solving skills.

PROJECTS

1

QuickSeat — Cinema Ticket-Booking Platform

[GitHub](#) | [Live Demo](#)

- Built a full-stack cinema ticket-booking platform using Spring Boot, Next.js, and PostgreSQL.
- Implemented temporary seat holding with automatic expiration to reduce duplicate bookings.
- Developed QR-based ticket generation and validation for cinema staff to verify and mark tickets as used.

2

Notiva — AI-Powered Knowledge Management App

[GitHub](#) | [Live Demo](#)

- Built a full-stack note management application using Spring Boot, PostgreSQL, and Next.js.
- Implemented a Retrieval-Augmented Generation (RAG) workflow with pgvector for semantic note search and AI-assisted conversations.
- Developed rich-text notes with categorization, soft deletion, and version-history recovery.

3

Readora — Personalized Digital Library App

[GitHub](#) | [Live Demo](#)

- Developed a digital library system using React Native for mobile, Next.js for the admin dashboard, and Spring Boot for the backend.
- Implemented personalized book recommendations based on users' selected interests and favorite categories.
- Integrated PDF reading and audiobook playback with progress tracking and automatic position saving.
